Harborline Cloud Services — Managed Cloud Storage Proposal

Prepared for Northbridge Industries, Engineering. Contact: Taylor Brooks, Enterprise Account Manager, taylor.brooks@harborline.example, +1 415 555 0142.

1. Company overview

Harborline Cloud Services was founded in 2014 and has 220 employees supporting more than 400 business customers in North America and Europe.

2. Commercial proposal

Total contract price: USD 98,400 per year for 60 TB of managed storage, including standard support.

Cost breakdown: storage capacity USD 79,200; standard support USD 12,000; migration services USD 7,200 (one-off, first year).

100% of the annual fee is payable upfront within 14 days of invoice.

Capacity above 60 TB is charged at USD 140 per TB per month; data egress and API request charges are billed separately as additional fees.

3. Migration plan

Migration from on-premise file servers will be completed within 10 weeks of signature, in three waves with weekly status reports.

4. Service levels

We commit to 99.9% monthly availability, with service credits of 5% of the monthly fee for each 0.1% below target, capped at 15%.

Support is available business hours (08:00–18:00 local time); 24/7 support is an optional add-on.

5. Contract terms

The initial term is three years. This agreement renews automatically for successive one-year terms unless cancelled in writing at least 30 days before renewal.

Prices may increase at each renewal at the provider's discretion.

The provider's total liability under this agreement is capped at the fees paid in the preceding three months.

6. Data protection

Customer data is stored in EU data centres and encrypted at rest (AES-256) and in transit (TLS 1.2+). Daily backups are retained for 14 days.

The provider will notify the customer of a confirmed personal data breach without undue delay.
