Summit Data Systems — Cloud Storage Services Proposal

Prepared for Northbridge Industries. Contact: Casey Nguyen, Head of Enterprise Sales, casey.nguyen@summitdata.example.

1. About Summit

Summit Data Systems has 18 years in business, 650 staff and is ISO 27001 certified and SOC 2 Type II audited, serving over 1,200 enterprise customers.

2. Pricing

Total annual price: USD 112,800 per year for 60 TB, including 24/7 support, migration and onboarding.

Payment is quarterly in arrears, net 45 days. Price increases are capped at 3% per year.

3. Implementation

Migration in 6 weeks with a dedicated project manager, a solution architect and fortnightly steering reviews.

4. Service levels

99.99% monthly availability, 1-hour response for severity 1 incidents, and service credits up to 25% of monthly fees.

5. Contract terms

Three-year term. Mutual liability cap of 12 months of fees; uncapped for data protection breaches and confidentiality.

Either party may terminate for convenience with 90 days notice after the first year. All custom scripts and configurations are owned by the customer.

6. Data protection

GDPR compliant; breach notification within 24 hours; EU data residency (Frankfurt and Dublin); daily backups retained for 35 days.
